

include/webcraft/async
/io/adaptors.hpp

```
graph BT; A["include/webcraft/async<br>/io/adaptors.hpp"] --> B["include/webcraft/async<br>/io/io.hpp"]; B --> C["include/webcraft/async<br>/async.hpp"];
```

The diagram illustrates a vertical stack of three rectangular boxes representing header files. The top box is shaded gray and contains the text 'include/webcraft/async /io/adaptors.hpp'. The middle box is white and contains 'include/webcraft/async /io/io.hpp'. The bottom box is white and contains 'include/webcraft/async /async.hpp'. Blue arrows point upwards from the bottom box to the middle box, and from the middle box to the top box, indicating that the top file depends on the middle file, which in turn depends on the bottom file.
